

Because women's work is never done and is unpaid or underpaid, repetitious and often hazardous and --Because fourteen Canadian women were just massacred and when we're killed, bashed or raped it's because we are too threatening or shouldn't be out alone and --Because 1/4 of us are raped by male relatives and --Because we face verbal and physical harassment, the loss of our jobs and our children when we come out as lesbians and --Because prisons are holding camps for people of color, and when women are jailed it's for trying to survive or defend ourselves and our children and --Because there ARE political prisoners and Prisoners of War in the U.S. and --Because we don't want to be in combat for this government and --Because in the Philippines young girls are forced to provide recreational sex for US servicemen and --Because the Green Berets train Salvadoran, Israeli and South African Armed Forces in sexual torture and --Because the Supreme Court has dispensed with basic human rights for people of color and --Because white supremacists are setting off bombs throughout the South and Nazi skinheads are beating up Black people with baseball bats and --Because the AIDS epidemic is criminally ignored by the government and --Because we can't get affordable and quality childcare and education and housing and healthcare and are ignored or blamed when we have disabilities or cancer or chronic fatigue and --Because of the Webster decision and --Because we can't get safe, adequate birth control and are called murderers when we have abortions and --Because we are drugged, electroshocked and locked away when we rebel and --Because we starve ourselves to death and are taught to hate our bodies especially when we are fat and --Because when we love women we are told it's because we are unable to get a "real" man and --Because we want a women's liberation movement but are supposedly "beyond feminism" and for lots and lots and lots of other reasons...

We Still Ain't Satisfied!
